ABOUT THE COMPANY

Siyetra Cranes (Pvt) Ltd is a premier heavy engineering partner in Sri Lanka, delivering a dual-stream portfolio of **Equipment Rental** and **Machinery Trading**.

Under the strategic direction of **Mr. Dinuka Rajapaksha** (Director) and the operational management of **Siyetra team**, we bridge the gap between complex construction demands and high-performance machinery. We are dedicated to supporting the island's infrastructure, industrial, and maritime sectors with world-class assets and technical expertise.

Our Core Mission

To provide reliable, certified, and high-capacity lifting and logistics solutions that drive project efficiency and minimize operational downtime.

OPERATIONAL FLEET & RENTALS

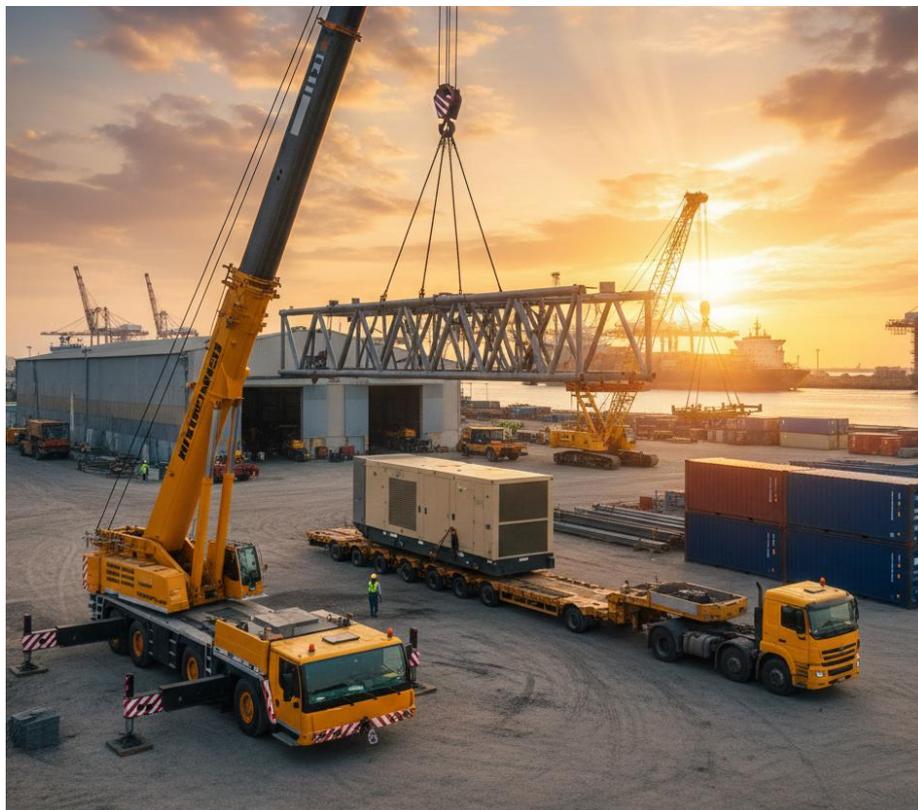

Our rental division offers deployment-ready assets maintained to rigorous safety standards. We support short-term hires for specific lifts and long-term contracts for large-scale infrastructure projects.

Lifting Solutions

- **All-Terrain Cranes:** High-mobility units offering superior highway speeds and massive on-site lifting capacity. Ideal for multi-site projects.
- **Rough-Terrain Cranes:** Specialized heavy-duty cranes designed for off-road stability and maneuvering in confined, unpaved construction zones.

Heavy Haulage & Logistics

- **Lowbed Prime Movers:** Specialized transport for over-dimensional cargo, heavy industrial plant, and tracked machinery.
- **Flatbed Prime Movers:** Reliable logistics for containerized cargo, structural steel, and bulk construction materials.

SALES & EQUIPMENT TRADING

Beyond rentals, Siyetra Cranes serves as a trusted supplier for the construction industry. We source and supply high-quality machinery and components to keep your operations running smoothly.

Heavy Machinery Sales

We import and sell a wide range of reconditioned and new heavy equipment tailored to client specifications, ensuring value and performance.

Spare Parts Supply

Comprehensive sourcing of genuine and OEM spare parts for cranes, prime movers, and earth-moving equipment. We ensure critical components are available to reduce your maintenance downtime.

Lifting Equipment & Rigging Gear

We supply certified lifting accessories essential for safe crane operations, including:

- Heavy-duty shackles and hooks.
- Certified wire ropes and slings.
- Safety helmets, jackets, and shoes

THE SIYETRA PROMISE

- **Technical Integrity:** Every machine sold or rented undergoes strict mechanical inspection.
- **Industry Expertise:** Our management team provides consultation to ensure you select the right machine for the job.
- **Safety Compliance:** We adhere to strict industrial safety protocols in both our rental operations and equipment standards.

World-class, meticulously maintained fleet with a “Zero-Incident” safety culture, we deliver more than just machinery—we deliver the certainty that your project will rise on time, every time.

Few of More

We are proud to be the trusted partner for some of the world's leading engineering and logistics firms. Our track record with these organizations proves our ability to meet the most demanding international safety and operational standards.

Colombo Port City Project – with China Harbor Engineering Co.Ltd (CHEC)

Greater Matale Water Supply Project – with China Eleventh Chemical Construction Co., Ltd

Colombo – Katunayaka Expressway Project – with Supreme Logistics Pvt Ltd

Waterfront Integrated Resort (Cinnamon Life – TRIA) – with Lifttec Lanka Pvt Ltd

Kandy City Wastewater Management Project – with Kolon Global Corporation

ACCESS head office tower project – with ACCESS Engineering

Minuwangoda, Gampaha and Aththanagalla integrated water supply scheme intake project – with China Machinery and Engineering Cooperation (CMEC).

Kelaniya flyover bridge project – with Sierra Costruction

Construction at BIA, Camso Loadstar tire division projects, Wattala Aitken Spence warehouse, Cargills warehouse, Ambewela farm warehouse and more projects – with Advantis Engineering and Projects.

Orange Electric factory, Badallgama Variosystems Electronics warehouse, Kotugoda Advantis 3PL Plus Logistics warehouse, Kerawalapitiya Spectra Logistics warehouse and more projects – with Advance Steel Structures (ZAMIL Steel).

Mega Shut Down – Ceylon Petroleum Corporation

Wind power project – WindForce PLC

Dipped products (DPL) factory – Advance Steel Structures (Pvt) Ltd & Lalan Engineering (Pvt) Ltd

Nestle Lanka Pannala Biomass boiler project – Lalan Engineering Pvt Ltd

Kerawalapitiya LNG Power plant – with Advantis Engineering
